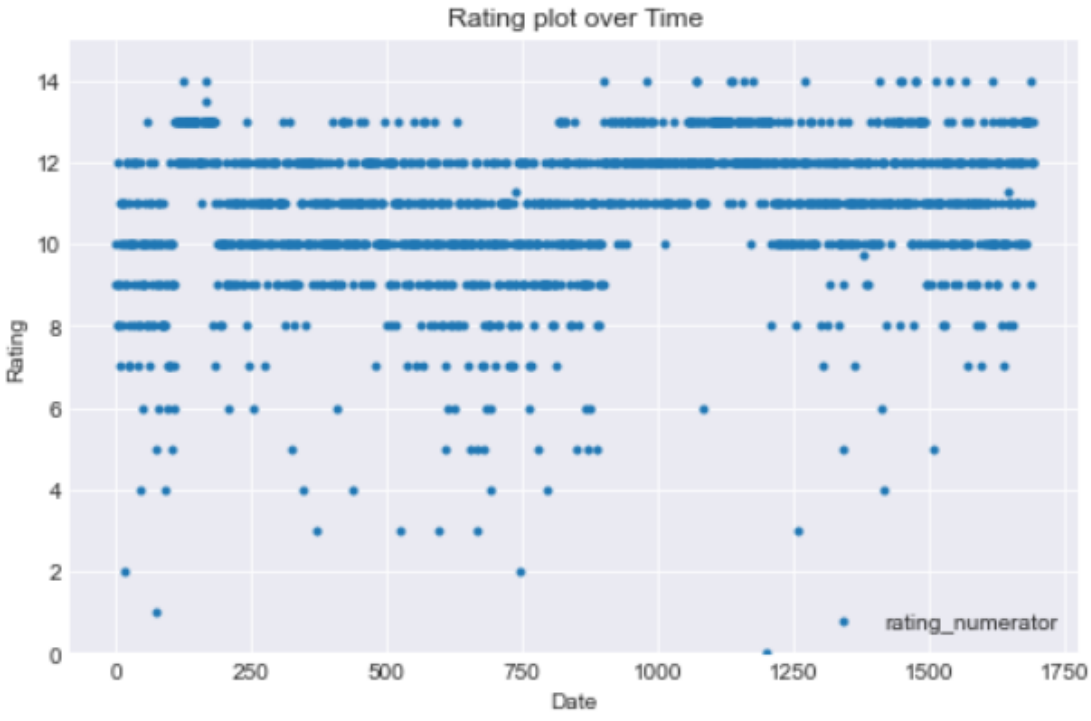
We Rate Dogs Hmmmm. Cool name right?

On 2016 they got the most famous meme "*they're good dogs Brent*".

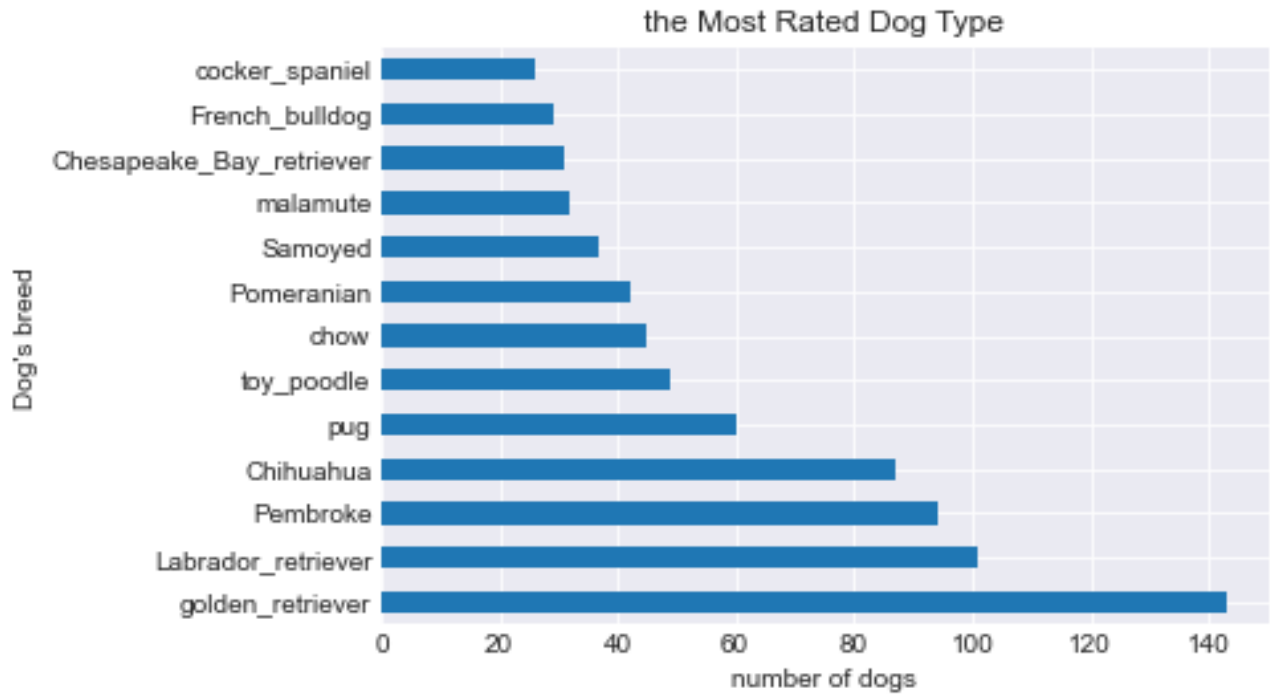
First of all this an twitter account posted "cool" images of dogs any one can sent his dog's photo and they will rate it.

These rating with denominator of 10 (mostly), however the most rating are greater than 10 (13\10, 15\10), maybe you're asking yourself now why this bad rating system right? … let me tell you why Because "*they're good dogs Brent !*" , so they decided that they will disagree the normal rating system and all dogs should have rating more than 10 Because they're good dogs Brent.



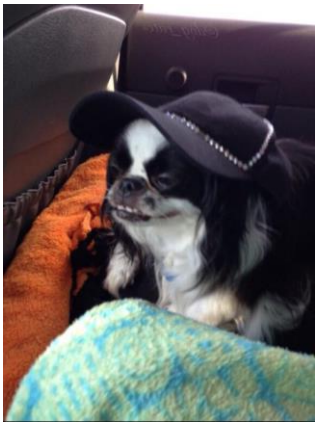
Most common dog type is golden retriever.

This breed of dog got more than 140 ratings.



Lowest dog rating

Based on their reply with Brent, all dogs deserve rating more than 10 but I think the admin didn't like Japanese Spanial at all, Cute! … Ok I'm joking ☺



Rating System

The page start with small rating than they adopt the system of rating numerator more than the denominator, because they're good dogs ☺
